In a bold meeting of art and craft, Brintons has partnered with Claire Mueller — the visionary behind floral art studio ACID. FLWRS — to create a distinctive capsule rug collection. Pioneer of the marbled orchid, Mueller brings her signature psychedelic aesthetic to four extraordinary designs, each a canvas where hyper-coloured florals, fluid marbling and iridescent water-scapes come to life in rich, tactile form. The result is a collection that sits at the intersection of fine art and interior luxury.

The collection is a showcase of technical mastery, spanning the precision of Brintons' High Definition Axminster technology and the artisan quality of hand-tufting. From the dynamic, glitch-inspired forms of Glitch Runner to the dreamlike depth of Flower Ripples and the layered, sculptural textures of Marble Waves, every piece translates Mueller's painterly vision into something you can walk on, touch and live with. This is where over two centuries of Brintons craftsmanship meets a thoroughly contemporary creative force.
