Brintons

Project: Caesars Palace High Limit
Details: Axminster

Brintons partnered with Marnell and Caesars Entertainment Hotels to provide custom Axminster carpet at the Caesars Palace Las Vegas High Limit room.

Brintons Senior Designer, Katie Nehrbauer reflects on her part designing the carpet. "The Caesars High Limit Room was truly a passion project for me. The design direction from Marnell was exceptionally thoughtful, with attention paid to even the smallest details. Our inspiration stemmed from classic mosaics, but we wanted to reinterpret them with a modern sensibility. To achieve this, we layered intricate patterns with subtle shifts in color, creating movement and depth throughout the design. Every single mosaic tile was hand-drawn to follow the curves of the composition, resulting in a design that feels both timeless and dynamic."

Leveraging Brintons' High Definition technology, 24 colors and a large repeat, were incorporated to ensure richness and dimension.
