

Brintons

Project: Coshatta Casino Resort
Details: Axminster Tile

Brintons had the pleasure of partnering with TBE Architects to deliver custom Axminster carpet tile for the High Limits area at Coshatta Casino Resort in Kinder, Louisiana.

Owned and operated by The Coshatta Tribe of Louisiana, the project offered a unique opportunity to honor tribal heritage. The dynamic, flowing design highlights the Alligator Gar, proudly positioned at the heart of the tribal seal. This space carries profound cultural significance for the tribe.

The flooring features 36" x 36" Axminster carpet tiles, woven with Brintons' critical match capability to ensure seamless alignment of large-scale, intricate patterns. This precision allowed for a cohesive and impactful look across a demanding, high-traffic space without compromising durability or design fidelity.

"Brintons worked with us every step of the way, helping troubleshoot any issues that arose, allowing us to deliver a spectacular custom carpet that incorporated colors and imagery rooted in tribal culture."

David Nejelski
Vice President & Creative Director
