Brintons

Project: Grand Hyatt Deer Valley
Details: Axminster

Brintons collaborated with The Parker Company to provide Axminster carpet for the public areas at Grand Hyatt Deer Valley.

The Ballroom and Prefunction carpet designs take inspiration from the ever-changing beauty of the sky and clouds. Flowing, curved shapes—reminiscent of drifting clouds—create a sense of depth and movement, bringing an organic softness to the space.

Delicate color transitions mimic the sky's natural gradients from dawn to dusk, while a curated mix of textures adds dimension and tactile intrigue. Infused with the moody, shifting tones of the sky, the carpets evoke tranquility and drama, transforming the interiors into immersive landscapes.

"Brintons attention to detail, professionalism and commitment to delivering a stunning final outcome for the public area's Axminster carpet at Grand Hyatt Deer Valley exceeded our expectations. Their exceptional service and impeccable planning know-how when tasked to implement a highly complex design made working with them seamless."
