Brintons

Project: Hyatt Regency Waikiki Beach Resort & Spa
Details: Wilton Rugs

Brintons worked with the Hyatt Regency Waikiki Beach Resort & Spa to deliver Wilton rugs for the hotel's Junior Suites, supporting a guest experience that reflects the property's relaxed, coastal setting.

Working within a light, contemporary interior scheme, the rug design introduces a rich grey palette that adds depth and visual interest while harmonizing with soft neutral tones and natural finishes. The result is a balanced aesthetic that evokes the surrounding ocean environment while maintaining a calm, sophisticated atmosphere within the guestroom.

As part of Brintons' hospitality rug offering, Wilton rugs combine sophisticated construction with the warmth and richness of premium wool yarns. They feature a smooth, refined surface with dimensional texture, a plush feel that provides exceptional comfort underfoot, and are an ideal solution for guest rooms.

Brintons helped enhance the overall guest experience, contributing to a space that is both visually distinctive and built to last.
