

Brintons

Project: IL PREMIO

Details: QuickWeave

Brintons collaborated with STOKES Architecture + Design to craft QuickWeave carpet for IL Premio, a modern Italian steakhouse in Atlanta, GA.

Designed to exude both contemporary sophistication and a timeless Italian ambiance, IL Premio's interiors feature carefully curated elements that enhance the dining experience.

For the flooring, Brintons' QuickWeave program was chosen for its versatility and efficiency. The selected design was customized using the Revive palette, a dynamic colorway that enriches the space with warmth and depth.

The QuickWeave program is an ideal solution for fast-paced projects, offering the flexibility to recolor patterns with any of Brintons' six palettes—Inception, Odyssey, Sequence, Unity, Naturals, and Revive.

This innovative program ensures that designers can achieve a tailored aesthetic while benefiting from Brintons' renowned craftsmanship and high-performance woven carpets.
