Brintons

Project: JW Marriott Las Vegas
Details: 20,000+ SY Axminster

Brintons designed and manufactured over 20,000 SY of Axminster carpet for the public spaces, ballrooms, meeting rooms, pre-function areas, and corridors at JW Marriott Las Vegas Resort & Spa.

Seamlessly merging its Spanish Colonial architecture with modern elements, the resort showcases textural and layered details inspired by the natural beauty of the Nevada landscape.

Earthy tones and rich blue hues evoke the essence of cienegas and the region's diverse fauna and flora, capturing the spirit of the ever-changing desert terrain in both wall-to-wall carpet and inset rugs througout the property.

"I highly recommend Brintons for several reasons. I have worked with them on several projects throughout the years, and their design team and product quality is consistently outstanding, exceeding my expectations every time. Their customer service is fantastic, and I have always been impressed with their skill and professionalism."

Barbara Erickson
