Brintons

Project: MarQueen Hotel
Details: Axminster Broadloom & Loose Lay Rugs

At Seattle's historic MarQueen Hotel, Brintons collaborated on carpet that balances the property's rich heritage with a fresh, boutique hospitality experience.

Custom Axminster carpet was specified throughout the guest corridors while bespoke Axminster loose-lay rugs were designed for public spaces, study areas, and Guest room suites.

Inspired by the hotel's historic architecture and residential aesthetic, the flooring palette blends deep navy, sage green, warm taupe, blush, and soft ivory tones, creating a cohesive visual story that complements the property's dark millwork, botanical motifs, curated artwork, and vintage-inspired furnishings.

Woven to exact project specifications, Axminster rugs from Brintons can be customized in size, shape, color, and pattern, allowing designers to create distinctive feature pieces that complement the overall interior design while delivering the durability required for hospitality environments.
