

Brintons

Project: Outpost Casino

Details: Axminster Tile

Brintons partnered with Outpost Casino to provide custom Axminster tiles for the gaming floor.

Located in Wyandotte, OK, Outpost Casino boasts over 280 gaming machines and tapped Brintons to produce the carpet for their flooring refresh. The wave-designed carpet is colored in shades of reds and a pop of blue which add to the inviting interior atmosphere. The team chose Brintons critically matched tiles for several reasons; ease of installation and maintenance as well as underfloor access.

"We enjoyed working with Brintons throughout the carpeting process. Their expertise, attention to detail, and excellent customer service made the entire experience seamless."
