

Brintons

chapter two

vector
concepts

Vector Concepts has been thoughtfully developed by the Brintons design team to showcase inspirational design material that is new, exciting and never published before.

This second chapter takes interior designers on a journey to explore the vibrant use of colour and pattern which can be used to develop stunning carpets that are not only beautiful and visually inspiring but also practical and sensible for use in a wide range of applications across hospitality, leisure and gaming interiors.

The designs in Vector Concepts are offered as a bespoke programme so users can either select a design and colourway as presented in the collection, or change any element of the design or colour using our state of the art design service and standard colour system.

Vector Concepts will be enhanced further in coming months with new designs reflecting emerging interior trends to ensure the collection continues to meet the design needs of our clients in all markets.

Vector Concepts is also available through Brintons Design Studio Online (DSO) where users can interact with their chosen designs, recolour them and view them in a room. For more details visit www.brintons.net
