Brintons

guestrooms & corridors

chapter three

vector concepts

Brintons brings further creative innovation to the Vector design collection with the introduction of a newly designed Corridor and Guestroom bespoke package.

This third chapter of bespoke design options has been carefully chosen for the hospitality sector and provides a new approach in the creativity and use of carpet in corridors and hotel guestrooms.

The designs in the new collection draw on the vast experience of Brintons Designers working globally with architects and designers in the hospitality sector and are illustrated in a way that shows the flexibility of the offer. Corridor designs are shown with complimentary designs used in the same 'family' in adjacent guestrooms. A variety of scales from designs that are almost 'textural' and organic through to large-scale designs, that will make a real statement in a guestroom are displayed throughout the collection.

This collection will provide you with new ways to view designs in guestroom areas using either 'flood plans' or corridor and guestroom room sets. Designs follow themes from sumptuous contemporary takes on the classical style or sets of designs which have an all over 'sketchy' feel designed to translate into a contemporary use of design and colour in public areas.

All of the designs within the collection can be re-coloured or adjusted to your requirements, our design team can help to develop any of the concepts illustrated in the book. They can also recolour any of the designs for you using the Brintons standard tuft box. Print outs and samples are available to show your final chosen preferences.

Vector Concepts is also available through Brintons Design Studio Online (DSO) where users can interact with their chosen designs, recolour them and view them in a room. For more details visit www.brintons.net
